SUMMARY

Hello, I'm Abiral koj. I'm currently pursuing **Bachelor's in IT hons.(BIT)** degree, with a passion for creating visually appealing websites. I expertise in **HTML, CSS, JavaScript** and framework like **Bootstrap** with a good foundation in **ReactJS**. And I'm always keen to learn more and add my creativity to the team. Delivering an optimal user experience always remains my target.

EDUCATION

Bachelors in Information Technology

Texas College of Management and IT / Kathmandu / March, 2021 - Present
I'm currently pursuing (Hons.)BIT Degree.

+2 Science

Seabird International College / Bhaktapur / September, 2018 - September, 2020

WORK EXPERIENCE

Front End Web Developer Intern

Texas Imaginology / Chabahil / January, 2022 - March, 2022
My main Roles were:

- Building Dynamic and Responsive Websites using CSS3 and JS.
- Deploying the Websites on Virtual Servers like Vercel, Netlify.
- Working as a team with senior developers.

TRAINING/CERTIFICATIONS

30 days of JavaScript

I completed 30 days of JavaScript course. This helped me understand logics and basic of programming.

Responsive Web design certification

Freecodecamp.org

This is a certification provided by free code camp for completion of projects and courses given.

PROJECTS INVOLVED

Food App

This is a restaurant website created with the use of Tailwind CSS and ReactJS. It is completely responsive in all devices.
<https://github.com/abiralkoju/FoodApp>

Interactive Rating

This is a basic review website I made using my frontend skills. Here a user can rate a website based on their user experience in the site.
<https://github.com/abiralkoju/interactive-rating-site>

Music Website

A landing page music website where I have used CSS properties to add better user experience.
